ATLAS

Glass Cylinder Gravity-Fit Shade

ATLAS Glass Cylinder Shades provide a classic yet simple design to pair up with one of our ConTech Pendants. Perfect to use with our RLM80 Modern Pendant/LED Filament Lamp combinations or our LED Integrated Pendants. When the clear or amber ATLAS shade is used with ConTech's CRS8 LED Pendant choose the double cylinder configuration with white frost inner cylinder to illuminate the outer shade evenly for a clean, inviting design. These shades are designed for use with ConTech's Gravity-Fit pendants and include a new slotted mounting ring to facilitate installation.

Shown with MEGAMAN Edison-style LED Filament lamp (P/N LG7003DGD-E26-2200K-120V)
